Children will enjoy exploring these twelve thematic units: All About Me, Animals, Community Helpers, Dinosaurs, Fall, Family, Five Senses, Friends, Insects, Nursery Rhymes, Shapes and Colors, and Transportation. Eighteen years ago, the prehistoric past collided with the present as time itself underwent a tremendous disruption, transporting huge swaths of the Cretaceous period into the twentieth century. Neighborhoods, towns, and cities were replaced by dense primeval jungles and modern humanity suddenly found itself sharing the world with fierce dinosaurs. In the end, desperate measures were taken to halt the disruptions and the crisis appeared to be over. Until now. New dinosaurs begin to appear, rampaging through cities. A secret mission to the Moon discovers a living Tyrannosaurus Rex trapped in an alternate timeline. As time begins to unravel once more, Nick Paulson, director of the Office of Security Science, finds a time passage to the Cretaceous

period where humans, ripped from the comforts of the twenty-first century, are barely surviving in the past. Led by a cultlike religious leader, these survivors are at war with another sentient species descended from dinosaurs. As the asteroid that ends the reign of dinosaurs rushes toward Earth, Nick and his allies must survive a war between species and save the future as we know it. Dinosaur Thunder is a terrifying, futuristic thriller in the tradition of Michael Crichton and Douglas Preston. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The beautifully illustrated cut-out board books introduce the tiny tots to the world of animal kingdom and encourage them to learn interesting facts about them. Complete instructions for cutting out and assembling dramatic face masks of 11 prehistoric predators, including a toothy Tyrannosaurus Rex, the two-ridged Dilophosaurus, Ichthyosaurus — the "fish lizard" — Pachycephalosaurus, affectionately nicknamed "bonehead," and 7 other awesome creatures. Create your own magical prehistoric terrariums and dioramas while teaching kids about dinosaurs and their habitats. Tiny Dino Worlds shows dinosaur lovers of all ages how to create prehistoric habitats with real plants. From active volcanoes and dino poop to handmade fossils and interactive terrariums, kids and adults alike will have fun building living habitats for all of their favorite dinos. Design a Jurassic world with plants that actually look just like prehistoric ones--or stage an epic battle between the vicious T-rex and the stubborn Triceratops. The book includes 26 simple projects (appropriate for kids ages 4-10), ranging from making sticky mud traps from homemade slime to cracking open "ice eggs" to reveal the dino hidden inside. Written by a crafty mom and vetted by two paleontologists, this book is jam-packed with fun, educational projects, weird but true facts about dinosaurs, and gorgeous step-by-step photography. Tiny Dino Worlds is sure to delight all the dinosaur-lovers in your life! "Early themes - animals is one of a new series of teacher resource books designed to support teachers as they impart knowledge about commonly-taught themes in early childhood classrooms. The books contain a variety of ideas for using the themes to assist

teachers as they convey early skills and concepts using cross-curricular activities in learning centres or whole class activities." --p. iii. This is a specially formatted fixed layout ebook that retains the look and feel of the print book. GET READY TO PARTY! Inside this book are all the ideas, tips, hints and fully illustrated instructions you'll need to throw a birthday party that will be remembered for years to come. From robot costumes made out of cardboard boxes and games with cars and trucks, to zoo animal cupcakes and princess table settings, PARTY! has it all. This brilliant colouring book is crammed full of dinosaurs reimagined as different fonts. Children will have fun learning to recognise letters in different shapes and sizes. They will learn how to spell out the names of their favourite dinosaurs while they colour them in. The book contains 50 fontosaurs to colour in along with activity sheets of fontosaurs to cut out, colour and stick onto a prehistoric landscape. The idea to mix dinosaurs with fonts was inspired by Sarah's 12-year-old nephew Eddie, who loves fonts and makes animals out of the letters that spell out their names. The challenge for Sarah was to choose fonts to suit different dinosaurs and then to construct each one out of the letters of its name. Top dinosaur fan 3-year-old Blake has given the book his enthusiastic thumbs-up and says "oh I love this book". Get ready to learn all about prehistoric life! The fun and interactive pages in Learn About Dinosaurs entertain your child while simultaneously teaching basic skills. Topics include recognizing letters and numbers, matching fossils and animals, and identifying same and different. Each 32-page workbook in the Learn About series is designed to provide a fun learning experience. The broad selection of topics appeals to a wide range of young learners and parents, and each workbook features engaging, interactive activities and easy-to-follow directions. The colorful covers and grade-appropriate content make this series an excellent tool. The text that pioneered a constructivist approach to elementary science teaching is based on two fundamental and complementary ideas: that it's more important for children to learn how to do science than to learn about science, and that elementary science teachers needing to know a great deal of

science, but rather should be co-inquirers with their students. ELEMENTARY SCIENCE METHODS: A CONSTRUCTIVIST APPROACH, Sixth Edition, features a wealth of exercises, including open-ended inquiry activities that help teacher candidates construct their own conceptualizations about science content and teaching methods. More than 170 process-oriented, open-ended activities, organized by grade level, can be used to encourage children to develop and perform their own investigations. All activities and much of the text content are clearly linked to National Science Education Standards (NSES) for content, professional development, assessment, and teaching. Also included are suggestions for appropriate children's literature to encourage interdisciplinary learning. The book's website, Education CourseMate, provides valuable tools and resources such as additional activities and video clips that students can use both in their college course and later in elementary science classrooms. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Hundreds of proven hands-on activities, carefully outlined and using inexpensive materials, emphasize learning by doing, encourage creativity, and afford opportunities to develop responsibility. Organized into 19 thematic units (from "Marvelous Me" to "Summertime and the Sun") and correlated to the school-year calendar, the activities cover key curriculum areas such as language arts, math, and science; they also involve art, music, cooking, movement, block play, and role plays. Jargon-free and clearly written, the book is also a great resource for parents. Grades preK-K. 302 pages. Good Year Books. Second Edition. Contains artwork of dinosaurs and plants to cut out and use to make dioramas of the Cretaceous and Jurassic Periods of the Mesozoic Era. Also contains text about dinosaurs Dinosaurs (Theme Packs for Lower Primary) Motivate and engage students in grade K with Language Arts Activities Using Colorful Cut-Outs™. This 112-page book is filled with skills-based, interactive language arts activities that are fun to use and easy to prepare. It includes more than 40 activities that focus on recognizing the alphabet, using uppercase and lowercase letters, writing

letters, identifying rhyming words and high-frequency words, and answering comprehension questions. The book also includes leveled activities, a skills matrix, an assessment matrix, and reproducible cutouts and aligns with state, national, and Canadian provincial standards. Develop letter recognition, vocabulary, rhyming skills, story event recollection, math skills, and fine and gross motor coordination by creating and using easy art projects.
