Survival in a Tough World Feb 08 2021 I would like to begin this book by thanking the readers of my first two books, "From Where My Strength Lies - The Life of a Horse Whisperer" and "The American Way of Training Hunters & Jumpers". I am overwhelmed by the support I have received from across America, as well as from around the rest of the World. These books have now sold in the United Kingdom, Ireland, Germany, Holland, France, Italy, Canada, Mexico, Australia, New Zealand, South Africa, Russia and Czechoslovakia. This book is a follow up to my first book and contains more of my stories from an interesting, but challenging life in the International sphere of Showjumping - a life in which I owe everything to all of the horses and animals which I have had the honor of knowing. I recommend reading my first book, "From Where My Strength Lies - The Life of a Horse Whisperer",

before embarking on this book, as there are many follow up stories. To my loyal readers. Enjoy! This one's for you! I learned quite early in my career that being successful in the magnificent sphere of International Showjumping is a passport to the World. Should one succeed in this difficult and technical sport, they shall inevitably meet VIPs, royalty, dignitaries, celebrities, movie stars and the enormously wealthy. National and International doors open when one shines in this world. Being successful in the sphere of showjumping enabled me to travel to places which I never would have had the opportunity to see otherwise. With endless thanks to the horses, I have traveled across this country from coast to coast. I have also traveled across Europe, Germany, Holland, Switzerland, Sweden, Belgium, Great Britain, Ireland, France, Poland, Russia, New Zealand, Mexico, Puerto Rico and Bermuda. A rider and true horse person must be able to feel and study the horse's personality, thus adapting their style and training techniques to each individual horse. I find the process of becoming a friend and partner with each horse absolutely fascinating. My story is about the understanding of horses and life. This includes all of the National and International ventures along the way. When a rider is able to get on a vast variety of different horses and understand them, relate to them with empathy, compassion and sympathy, and guide the horse to perform willingly and happily to the best of their ability, one becomes a Horse Whisperer. It is not the horse's responsibility to understand us. It is our responsibility to understand the horse. This book is a compilation of my life stories in the vast International World of Showjumping. It involves understanding many different horses - several of which began as extremely difficult horses or rejects from other horsemen. Over and over again, what may have been an extremely difficult or misunderstood horse became my friend and my competition partner on the highest level. Many of these horses became Nationally and Internationally famous. A few of them became Hall of Fame horses. This is a book about some of those misunderstood and rejected horses, and how they accomplished great things once they were finally understood. This is a book about how I became a Horse Whisperer.

Half Broke: A Memoir May 31 2020 A top-ranked horse trainer's gorgeous, life-affirming memoir that offers profound insight into the fascinating ways both horses and humans seek relationships to survive. At the start of this remarkable story of recovery, healing, and redemption, Ginger Gaffney answers a call to help retrain the troubled horses at an alternative prison ranch in New Mexico, a facility run entirely by the prisoners. The horses are scavenging through the dumpsters, kicking and running down the residents when they bring the trash out after meals. One horse is severely injured. The horses and residents arrive at the ranch broken in one way or many: the horses are defensive and terrified, while the residents, some battling drug and alcohol addictions, are emotionally and physically shattered. With deep insight into how animals and humans communicate through posture, body language, and honesty of spirit, Gaffney walks us through her struggle to train the untrainable. Gaffney peels away the layers of her own story—a solitary childhood, painful introversion, and a transformative connection with her first horse, a filly named Belle—and she, too, learns to trust people as much as she trusts horses. As her year-long odyssey builds toward a dramatic conclusion, the group experiences triumphs and failures, brave recoveries and relapses, as well as betrayals and moving stories of trust and belonging. Resonant, smart, and beautifully written, *Half Broke* tears at the heart of what it takes to find wholeness after years of trauma and addiction and offers profound insight on how working with animals can satisfy our universal need for connection.

Faraway Horses Jul 13 2021 "I've started horses since I was 12 years old and have been bit, kicked, bucked off and run over. I've tried every physical means to contain my horse in an effort to keep from getting myself killed. I started to realize that things would come much easier for me once I learned why a horse does what he does. This method works well for me because of the kinship that develops between horse and rider. When the Horses Whisper Jan 19 2022 "When the Horses Whisper shows the capacity of horses to help us heal the human heart. It expresses in human language what horses have to say when given the chance to speak. It is a story about the sacred bond between us, and the communication made possible when the horse-human relationship is based on love. Conversations with fifteen horses, most of who live and work in Costa Rica, are featured along with their photographs, capturing them as individual beings in service to humans on a shared evolutionary journey. This journey amounts to the "remembering" of our whole selves in the wholeness of creation, especially the parts we split off, deny, and place in shadow because they are too painful to deal with. Horses, as the book shows, can help us see these lost parts, and call forth our courage to reclaim them. For the author, these included the loss of a newborn daughter, the mental illness of an adult son, letting go of a thirty-year marriage, and childhood sexual abuse. The story recounts the equine healing work that helped in reclaiming her authentic self. This book is testimony to the power of horses and equine healing work in transforming life's losses into a deeper human wholeness and a further communion with the non-human world."--P. [4] of cover.

Powell was whispering to horses and training them much in the way the fictitious character Tom Booker did in the 1985 film. Indeed this volume was first issued in 1848, a hundred and thirty-seven years before the famous movie. By then Powell had been in business for over 30 years. In this volume Powell and Rarey tell: How to break and ride colts; How to tame the most vicious horses and gentle them to all kinds of vehicles or work; How to break them of kicking or any other bad tricks; How to teach them tricks or actions; etc., etc. This volume also has Numerous valuable receipts for diseases of horses as well as tips for farmers dealing with troublesome cows as well as remedies for oxen that lie down, and won't get up. As such, we recommend this book to anyone wanting to start a career in Horse Whispering. We also recommend it to young people who are just breaking into equine activities for either pleasure or sport, if only to give a valuable understanding of the nature of the equine breeds. In this volume Powell recounts how he read of a man who had lived a century earlier who had a secret method of taming horses and he resolved to discover the method for himself. Powell commenced his career as a horse whisperer shortly after 1811 and was so successful he was invited to Mexico to train and tame wild and troublesome horses. Thereafter Powell lived in Mexico for about 12 years, and then travelled to Cuba, Guatemala and California taming horses and making a good living doing so. 10% of the profit from the sale of this book will be donated to charities. ===== KEYWORDS/TAGS: The Real Horse Whisperer, Tom Dorrance, Ray Hunt and Buck Brannaman, Willis J. Horses Don't Lie Apr 10 2021 Written by one of the original Horse Whisperers Horses Don't Lie is the definitive guide to training horses and every horse trainer will welcome this method. After years of using his method to train horses Chris came to see that it could also be applied to human behaviour. As Chris points out: "A horse knows what you know." The characteristics necessary for building good relationships with horses can be used to deepen our relationships with other people and to enrich our daily lives. Horses can teach us how to communicate with empathy and patience, not only with them but with each other. Humans, like dogs, are natural predators while horses are prey that evolved to band together in packs for protection. This results in two differing types of consciousness and for a human to think like prey teaches many things. It teaches the trust and honesty essential in building relationships, and not only in a relationship with a horse; while the sensitivity and awareness that

characterises a horse's perception of the world are qualities we could all use in our own lives. "Always think like a horse and not like a dog." The real magic of horse whispering is what horses reveal to us about ourselves when we strive to understand their behaviour. *Horses Don't Lie* will teach you about the connections we can make in our lives when we learn from horses.

Think Like a Horse May 23 2022 In *Think Like a Horse*, veteran "horse whisperer" and leadership expert Grant Gollhofer applies his hard-won horse sense to teach invaluable lessons anyone can use to live a fuller, more successful life. Grant Gollhofer is what some would call a "horse whisperer," able to get a wild horse to calmly accept a saddle and a rider without the use of force. Through training thousands of horses, many traumatized or abused, Gollhofer was able to learn essential lessons about communication, boundaries, fairness, trust, and respect—lessons that apply not just to horses but to humans as well. It's why celebrities, Fortune 500 executives, professional coaches, supreme court justices, and even ordinary families from around the world flock to his Wyoming ranch every year to take part in what one CEO called "the most transformational experience I have ever encountered."

Horse whispering may sound like magic, but as Grant explains in *Think Like a Horse*, it's not really all that mysterious. The lessons he shares are as fundamental and ageless as the relationship between horses, the people who ride them, and the beauty of the West. In fact, it's an approach that anyone can learn, and should learn, in order to better understand our common humanity, overcome trauma, foster more fulfilled relationships, and unlock untapped potential in virtually every aspect of our lives. All you have to do is think like a horse.

Flying Lead Change Mar 09 2021 For leaders at work, at home, and in our communities—an essential guide to nature-based leadership inspired by the wisdom of indigenous teachings and horses. Is there a common element to the challenges and crises of our modern age? If so, it must be disconnection—from each other, our planet, and the sense that our lives have purpose and meaning. Where can we turn for answers? In *Flying Lead Change*, leadership teacher Kelly Wendorf offers a new approach to leading and living inspired by two profound sources of ancient wisdom: original peoples and Equus (the horse), grounded in evidence-based principles of neuroscience. In her groundbreaking EQUUS training program, Wendorf teaches a way of leadership modeled on a 56 million-year-old system of the horse herd—a path that has allowed humans and horses alike to survive the kinds of global and societal threats we now face, such as climate change and mass extinction. Here she takes you step by step through this powerful approach, including: • Listening—the starting point for all leadership, in which we suspend our biases and preferences • Care—explore the ancient, indigenous understanding of care that is reciprocal, empathic, and beneficial to all • Presence—meeting the here and now with vulnerability, openness, and a stable foundation • Safety—how a masterful leader creates a sense of group resilience and strength by “leading from behind” for the welfare of all • Connection—ways to move away from coercion and force to promote genuine communication and belonging • Peace—creating group harmony right now through the surprising concepts of “congruence” and “tempo” • Freedom—returning to our wild nature that is inherently free, unbridled, and unbroken • Joy—moving beyond temporary happiness to a state of wholehearted engagement of life, whatever the circumstances In horsemanship, a “flying lead change” allows a running horse to respond with breathtaking grace to changing conditions. “Collectively, we need a similar physics-defying maneuver,” Wendorf writes. “This book is for the called—thought leaders, visionaries, parents, creatives, and all those who sense we are being asked to participate in humanity’s ‘flying change’ through the way we live, love, and lead.”

Horse Sense for People Sep 15 2021 The book for which people have been asking Monty Roberts for years, *Join-Up* describes how what he has learnt from horses can play an important role in improving our lives. Public reaction to him, and to his books, has confirmed his belief that the concepts of *Join-Up* can help humans develop both business and personal communication. For many years corporations have been sending their managers to Monty Roberts' demonstrations, and the messages of non-

But Monty and Pat Roberts have also fostered over forty children and have seen how the same concepts of mutual agreement and trust can be used with great benefits in a family environment. Join-Up is full of stories of those who have found, through Monty Roberts, the strength to face their problems whatever they may be. Some are heart-wrenching, some are funny, all are illuminating. Join-Up is full of new stories about some of the horses he has worked with, and from whom he has learnt what he believes. *The Man Who Listens To Ho*
